Frozen synthetic presence head: real query overlays only

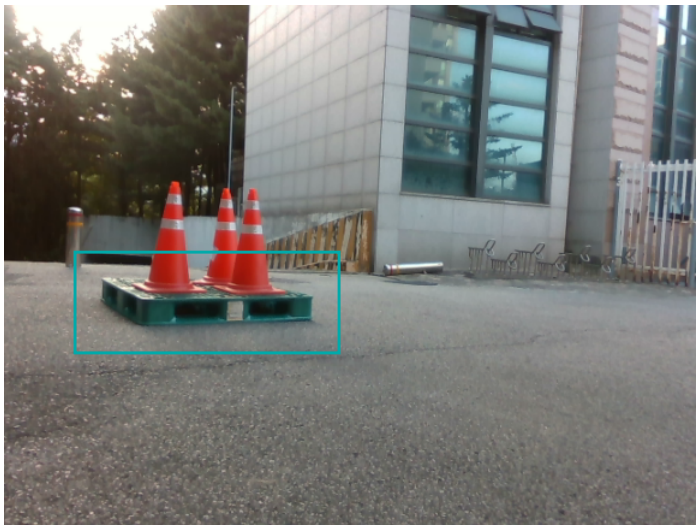

wood_183705:000000 | RGB

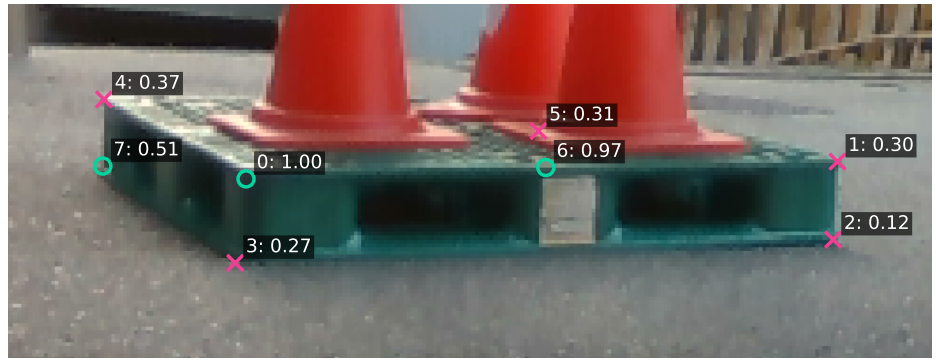

wood_183705:000000 | presence predictions; truth UNKNOWN

SQUARE_YOLO:024276 | RGB

SQUARE_YOLO:024276 | presence predictions; truth UNKNOWN

Green circle: predicted target present; magenta x: predicted target absent. Numbers are native query ID and probability.
No real target-pixel masks: these overlays are qualitative predictions, not measured real accuracy.
The same frozen head, threshold0.5, and cached original coordinates are used; no PnP, fitting or coordinate correction.
